SUMMARY

I'm Rafael, a software engineer from Veracruz, Mexico, living in Nuremberg. I'm a Senior Software Engineer at noris network, where I work across frontend, backend and ServiceNow in a multidisciplinary, international team.

Since 2010 I've been co-founder and CTO of Technit, a Mexican software company. I own the technology side: stack decisions, infrastructure, delivery and the team that builds it. Together we've shipped more than 30 mobile and cloud apps.

EXPERIENCE

Jan 2025 – present

Senior Software Engineer

noris network , Nuremberg

Frontend-led full-stack development in a multidisciplinary, international team, and more recently ServiceNow development.

Nov 2021 – Dec 2024

Software Engineer

noris network , Nuremberg

Frontend and backend development in a multidisciplinary, international team.

Nov 2018 – Oct 2021

IT Solution Architect

Schulte & Schmidt GmbH & Co.

Analysis, development, documentation and rollout of software solutions across the company.

- Built the company intranet from scratch to production, with LDAP authentication and role-based security across MariaDB, SQL Server and Sybase.
- Maintained and extended the SQL Server data warehouse and wrote reporting views for the controlling department.
- Put real-time KPI dashboards on monitors around the building (Docker, Ruby).
- Set up Icinga 2 for system and network monitoring, and built an iOS and Android app for the management board.

Feb 2010 – present

Co-founder & CTO

Technit Solutions , Mexico

Technology lead of a Mexican software and design company building tailor-made mobile apps and cloud software. More than 30 apps shipped.

- Owns the technology stack, infrastructure and IT operations.
- Plans and supervises delivery across the software development life cycle.
- Works with clients to define requirements and present solutions, and manages project budgets.
- Recruits and leads the development team.

Sep 2009 – Dec 2009

E-learning project

T-Systems México , Puebla

Built an online project management course based on PMI's PMBOK Guide on the Moodle platform.
